## A-Q200-Q200-1M-C

Arista Networks<sup>®</sup> A-Q200-Q200-1M Compatible TAA Compliant 200GBase-AOC QSFP56 Active Optical Cable (850nm, MMF, 1m)

## Features:

- 4 independent parallel optical channels
- Each channel data rate up to 26.56GBaud
- Hot Pluggable
- OM3 Multi-mode
- CML Compatible electrical I/O
- Operating Temperature Range: 0 to 70 Celsius
- Color: Aqua
- RoHS Compliant and lead-free

Applications:

• 200GBase Ethernet

## **Product Description**

This is a Arista Networks<sup>®</sup> A-Q200-Q200-1M Compatible 200GBase-AOC QSFP56 to QSFP56 active optical cable that operates over active fiber with a maximum reach of 1m. It has been programmed, uniquely serialized, and data-traffic and application tested to ensure it is 100% compliant and functional. We stand behind the quality of our products and proudly offer a limited lifetime warranty. This cable is TAA (Trade Agreements Act) compliant and is built to comply with MSA (Multi-Source Agreement) standards.

ProLabs' transceivers are RoHS compliant and lead-free.

TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581), which is intended to foster fair and open international trade. TAA requires that the U.S. Government may acquire only "U.S. – made or designated country end products."

Rev. 021325

## **General Specifications**

| Parameter                   | Symbol | Min. | Тур. | Max. | Unit |
|-----------------------------|--------|------|------|------|------|
| Storage Temperature         | Tstg   | -40  |      | 85   | °C   |
| Operating Case Temperature  | Тс     | 0    | 25   | 70   | °C   |
| Supply Voltage              | Vcc    | 0    |      | 3.6  | V    |
| Relative Operating Humidity | RH     | 5    |      | 85   | %    |
| Relative Storage Humidity   | RH     | 0    |      | 95   | %    |

## Notes:

1. Exceeding the Absolute Maximum Ratings may cause irreversible damage to the device. The device is not intended to be operated under the condition of simultaneous Absolute Maximum Ratings, a condition which may cause irreversible damage to the device. RH is a non-condensing condition.

### **Electrical Characteristics**

| Parameter                             | Symbol | Min. | Тур.  | Max.             | Unit  | Notes |
|---------------------------------------|--------|------|-------|------------------|-------|-------|
| Power Supply Voltage                  | Vcc    | 3.14 | 3.3   | 3.46             | V     |       |
| Single Module Supply Current          | IIN    |      | 1150  | 1350             | mA    |       |
| Signaling Speed Per Channel           | S      |      | 26.56 |                  | GBaud |       |
| Transmitter                           |        |      |       |                  |       |       |
| Tx_Data Differential Input Voltage    | VIN    | 300  |       | 900              | mV    |       |
| Tx_Data Differential Input Impedance  | ZIN    |      | 100   |                  | Ω     |       |
| Receiver                              |        |      |       |                  |       |       |
| Rx_Data Differential Output Voltage   | VOUT   |      |       | 900              | mV    |       |
| Rx_Data Differential Output Impedance | ZOUT   | 90   | 100   | 110              | Ω     |       |
| Link BER                              | BER    |      |       | 5E <sup>-5</sup> |       | 1     |

## Notes:

1. @26.56GBaud PRBS31Q.

## **Cable Specifications**

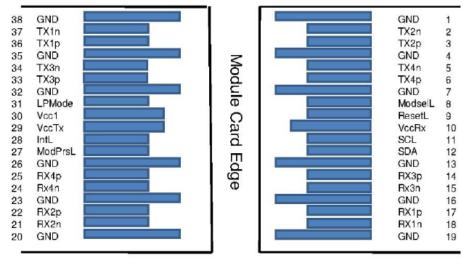

| Parameter                | Value      |
|--------------------------|------------|
| Minimum Bend Radius (mm) | 30         |
| Cable Diameter (mm)      | 3.0 ± 0.15 |
| Cable Tolerance          | +0.2/-0    |

# **Pin Descriptions**

| Pin | Symbol  | Name/Description                           | Notes |
|-----|---------|--|-------|
| 1   | GND     | Module Ground.                             |       |
| 2   | Tx2-    | Transmitter Inverted Data Input.           |       |
| 3   | Tx2+    | Transmitter Non-Inverted Data Input.       |       |
| 4   | GND     | Module Ground.                             |       |
| 5   | Tx4-    | Transmitter Inverted Data Input.           |       |
| 6   | Tx4+    | Transmitter Non-Inverted Data Input.       |       |
| 7   | GND     | Module Ground.                             |       |
| 8   | ModselL | Module Select.                             |       |
| 9   | ResetL  | Module Reset.                              |       |
| 10  | VccRx   | Receiver +3.3V DC Power Supply.            |       |
| 11  | SCL     | I2C Serial Clock.                          |       |
| 12  | SDA     | I2C Serial Data.                           |       |
| 13  | GND     | Module Ground.                             |       |
| 14  | Rx3+    | Receiver Non-Inverted Differential Output. |       |
| 15  | Rx3-    | Receiver Inverted Differential Output.     |       |
| 16  | GND     | Module Ground.                             |       |
| 17  | Rx1+    | Receiver Non-Inverted Differential Output  |       |
| 18  | Rx1-    | Receiver Inverted Differential Output      |       |
| 19  | GND     | Module Ground.                             |       |
| 20  | GND     | Module Ground.                             |       |
| 21  | Rx2-    | Receiver Inverted Differential Output.     |       |
| 22  | Rx2+    | Receiver Non-Inverted Differential Output. |       |
| 23  | GND     | Module Ground.                             |       |
| 24  | Rx4-    | Receiver Inverted Differential Output.     |       |
| 25  | Rx4+    | Receiver Non-Inverted Differential Output. |       |
| 26  | GND     | Module Ground.                             |       |
| 27  | ModPrsL | Module Present.                            |       |
| 28  | IntL    | Interrupt.                                 |       |
| 29  | VccTx   | Transmitter +3.3V DC Power Supply.         |       |
| 30  | Vcc1    | +3.3V DC Power Supply.                     |       |
| 31  | LPMode  | Low-Power Mode.                            |       |
| 32  | GND     | Module Ground.                             |       |
| 33  | Tx3+    | Transmitter Non-Inverted Data Input.       |       |
| 34  | Tx3-    | Transmitter Inverted Data Input.           |       |
| 35  | GND     | Module Ground.                             |       |

| 36 | Tx1+ | Transmitter Non-Inverted Data Input. |  |
|----|------|--------------------------------------|--|
| 37 | Tx1- | Transmitter Inverted Data Input.     |  |
| 38 | GND  | Module Ground.                       |  |

### **About ProLabs**

Our experience comes as standard; for over 15 years ProLabs has delivered optical connectivity solutions that give our customers freedom and choice through our ability to provide seamless interoperability. At the heart of our company is the ability to provide state-of-the-art optical transport and connectivity solutions that are compatible with over 90 optical switching and transport platforms.

#### **Complete Portfolio of Network Solutions**

ProLabs is focused on innovations in optical transport and connectivity. The combination of our knowledge of optics and networking equipment enables ProLabs to be your single source for optical transport and connectivity solutions from 100Mb to 400G while providing innovative solutions that increase network efficiency. We provide the optical connectivity expertise that is compatible with and enhances your switching and transport equipment.

## **Trusted Partner**

Customer service is our number one value. ProLabs has invested in people, labs and manufacturing capacity to ensure that you get immediate answers to your questions and compatible product when needed. With Engineering and Manufacturing offices in the U.K. and U.S. augmented by field offices throughout the U.S., U.K. and Asia, ProLabs is able to be our customers best advocate 24 hours a day.
