DS-X2-FC10G-ER-C

Cisco® DS-X2-FC10G-ER Compatible TAA Compliant 10GBase-ER X2 Transceiver (SMF, 1550nm, 40km, SC, DOM)

Features:

- X2 MSA 2.0 Compliance
- Duplex SC Connector
- Single-mode Fiber
- Commercial Temperature 0 to 70 Celsius
- Hot Pluggable
- Metal with Lower EMI
- Excellent ESD Protection
- RoHS Compliant and Lead Free

Applications:

- 10GBase-ER Ethernet
- 8x/10x Fibre Channel
- Access, Metro and Enterprise

Product Description

This Cisco[®] DS-X2-FC10G-ER compatible X2 transceiver provides 10GBase-ER throughput up to 40km over single-mode fiber (SMF) using a wavelength of 1550nm via a SC connector. It is guaranteed to be 100% compatible with the equivalent Cisco[®] transceiver. This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and application tested to ensure that it will initialize and perform identically. Digital optical monitoring (DOM) support is also present to allow access to real-time operating parameters. This transceiver is Trade Agreements Act (TAA) compliant. We stand behind the quality of our products and proudly offer a limited lifetime warranty.

ProLabs' transceivers are RoHS compliant and lead-free.

TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581), which is intended to foster fair and open international trade. TAA requires that the U.S. Government may acquire only "U.S. – made or designated country end products."

Rev. 041423

Absolute Maximum Ratings

| Parameter | Symbol | Min. | Max. | Unit |
|------------------------------|--------|------|------|------|
| Supply Voltage +5V | Vcc5 | | 6.0 | V |
| Supply Voltage_3.3V | Vcc3 | | 4 | V |
| Supply Voltage APS | Vaps | | 1.5 | V |
| Storage Temperature | Tst | -20 | 85 | °C |
| Optical Input Received Power | PIN | | -1 | dBm |

Recommended Operating Conditions

Notes:

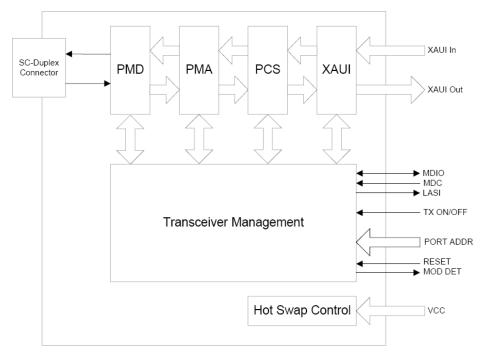

- 1. Ground connections are common for TX and RX.
- 2. All connector contacts are rated at 0.5A nominal.
- 3. 1.2V CMOS compatible.
- 4. MDIO and MDC timing must comply with IEEE802.3ae, Clause 45.3.
- 5. XAUI output characteristics should comply with IEEE802.3ae Clause 47.
- 6. Transceivers will be MSA compliant when no signals are present on the vendor specific pins.

About ProLabs

Our experience comes as standard; for over 15 years ProLabs has delivered optical connectivity solutions that give our customers freedom and choice through our ability to provide seamless interoperability. At the heart of our company is the ability to provide state-of-the-art optical transport and connectivity solutions that are compatible with over 90 optical switching and transport platforms.

Complete Portfolio of Network Solutions

ProLabs is focused on innovations in optical transport and connectivity. The combination of our knowledge of optics and networking equipment enables ProLabs to be your single source for optical transport and connectivity solutions from 100Mb to 400G while providing innovative solutions that increase network efficiency. We provide the optical connectivity expertise that is compatible with and enhances your switching and transport equipment.

Trusted Partner

Customer service is our number one value. ProLabs has invested in people, labs and manufacturing capacity to ensure that you get immediate answers to your questions and compatible product when needed. With Engineering and Manufacturing offices in the U.K. and U.S. augmented by field offices throughout the U.S., U.K. and Asia, ProLabs is able to be our customers best advocate 24 hours a day.
