## QSFP-100G-PSM4-LR4-C

100GBase-PSM4 QSFP28 Transceiver (SMF, 1310nm, 10km, MPO, DOM)

## Features:

- SFF-8665 Compliance
- MPO Connector
- Single-mode Fiber
- Commercial Temperature 0 to 70 Celsius
- Hot Pluggable
- Metal with Lower EMI
- Excellent ESD Protection
- RoHS Compliant and Lead Free

#### **Applications:**

- 100GBase Ethernet
- Access and Enterprise

## **Product Description**

This MSA Compliant QSFP28 transceiver provides 100GBase-LR4 throughput up to 10km over single-mode fiber (SMF) using a wavelength of 1310nm via an MPO connector. It is built to MSA standards and is uniquely serialized and data-traffic and application tested to ensure that they will integrate into your network seamlessly. Digital optical monitoring (DOM) support is also present to allow access to real-time operating parameters. This transceiver is Trade Agreements Act (TAA) compliant. We stand behind the quality of our products and proudly offer a limited lifetime warranty.

ProLabs' transceivers are RoHS compliant and lead-free.

TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581), which is intended to foster fair and open international trade. TAA requires that the U.S. Government may acquire only "U.S. – made or designated country end products."

Rev. 030723

# Absolute Maximum Ratings

| Parameter                  | Symbol | Min. | Тур.     | Max. | Unit |
|----------------------------|--------|------|----------|------|------|
| Maximum Supply Voltage     | Vcc    | -0.5 |          | 4.0  | V    |
| Storage Temperature        | TS     | -40  |          | 85   | °C   |
| Operating Case Temperature | Тс     | 0    | 25       | 70   | °C   |
| Relative Humidity          | RH     | 5    |          | 95   | %    |
| Data Rate Per Channel      |        |      | 25.78125 |      | Gbps |

# **Electrical Characteristics**

| Parameter                              | Symbol         | Min.  | Тур. | Max.  | Unit  | Notes |
|--|----------------|-------|------|-------|-------|-------|
| Power Supply Voltage                   | Vcc            | 3.135 | 3.30 | 3.465 | V     |       |
| Power Supply Current                   | lcc            |       |      | 1100  | mA    |       |
| Power Dissipation                      | P <sub>D</sub> |       |      | 3500  | mW    |       |
| Transmitter                            |                |       |      |       |       |       |
| Differential data input swing          | Vin,pp         | 190   |      | 700   | mVp-p |       |
| Input differential impedance           | Zin            | 90    | 100  | 110   | Ω     |       |

| Receiver                               |                |       |      |       |       |       |
| Differential data output swing         | Vout, pp       | 300   |      | 850   | mV    | 1     |
| Output differential impedance          | Zin            | 90    | 100  | 110   | Ω     |       |
| AC Common Mode Output Voltage          |                |       |      | 7.5   | mV    |       |
| Single-ended Output Voltage            |                | -0.3  |      | 4     | V     |       |

## Notes:

1. Internally AC coupled, but requires an external  $100\Omega$  differential load termination.

# **Optical Characteristics**

| 38  | GND     | Transmitter Ground (Common with Receiver Ground) | 1    |

# Notes:

- 1. The module signal grounds are isolated from the module case.
- 2. This is an open collector/drain output that on the host board requires a 4.7K $\Omega$  to 10K $\Omega$  pull-up resistor to VccHost.

# **Mechanical Specifications**

**Attention:** To minimize MPO connection induced reflections, an MPO receptacle with 8-degree angled end-face is utilized for this product. A female MPO connector with 8-degree end-face should be used with this product as illustrated in below Figure.

#### **About ProLabs**

Our experience comes as standard; for over 15 years ProLabs has delivered optical connectivity solutions that give our customers freedom and choice through our ability to provide seamless interoperability. At the heart of our company is the ability to provide state-of-the-art optical transport and connectivity solutions that are compatible with over 90 optical switching and transport platforms.

#### **Complete Portfolio of Network Solutions**

ProLabs is focused on innovations in optical transport and connectivity. The combination of our knowledge of optics and networking equipment enables ProLabs to be your single source for optical transport and connectivity solutions from 100Mb to 400G while providing innovative solutions that increase network efficiency. We provide the optical connectivity expertise that is compatible with and enhances your switching and transport equipment.

## **Trusted Partner**

Customer service is our number one value. ProLabs has invested in people, labs and manufacturing capacity to ensure that you get immediate answers to your questions and compatible product when needed. With Engineering and Manufacturing offices in the U.K. and U.S. augmented by field offices throughout the U.S., U.K. and Asia, ProLabs is able to be our customers best advocate 24 hours a day.
