#### Product Description

This MSA compliant EPON ONU class PR30 SFP+ stick provides 10G throughput up to 10km over single-mode fiber (SMF) using a wavelength of 1270nmTx/1577nmRx via an ASC connector. Our ONU solution comes with a built in MAC bridge. It is capable of withstanding rugged environments and can operate at temperatures between -40 and 85C. This product is in compliance with Multi-Source Agreement (MSA) standards to provide seamless network integration. Additional product features include Digital Optical Monitoring (DOM) support which allows access to real-time operating parameters. This transceiver is Trade Agreements Act (TAA) compliant. We stand behind the quality of our products and proudly offer a limited lifetime warranty.

ProLabs' transceivers are RoHS compliant and lead-free.

TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581), which is intended to foster fair and open international trade. TAA requires that the U.S. Government may acquire only "U.S.-made or designated country end products.")
