ProLabs
Unlock your connectivity

Certificate of Compatibility.

We compatibility test our transceivers with all switches and carry out regular testing according to the latest IOS/software releases.

Our product is designed and tested to conform to the MSA standard (Multi-Source Agreement) in accordance with physical dimensions, voltages, and lasers power (db budget). It is backed with a limited lifetime warranty offering reassurance to anyone that uses these products.

All parts are pre-tested measuring the laser eye on all transceivers ensuring a high standard of product is delivered. This specific test checks the product accurately sends and receives information as per the MSA sepcifications.

We can confirm we have been offering compatible solutions for all major switch manufacturers including Cisco for more than 10 years and now have over 3 million products in the field.

All ProLabs transceivers are covered by a limited lifetime next business day advanced replacement warranty*.
